WEB-RECRUITERS.COM

OUR EXPERTISE

People and technology, working together.

Flexible support for startups, growing businesses and enterprises.

IT recruitment

Senior developers, architects, technical leads, CTOs and other technical specialists.

AI, cloud and data recruitment

AI and ML engineers, LLM and AI agent developers, MLOps, cloud, DevOps, data and security.

IT outstaffing

Engineering specialists matched to your team and project needs.

AI development

Build and integrate AI features into business workflows and products.

Software, cloud and DevOps

Custom software development, cloud services and delivery support.

HR services

Consulting, coaching and training for recruitment teams, employees and managers.

OUR APPROACH

A search built around your team.

A dedicated manager coordinates communication, feedback and search priorities.

01

Define

Clarify the role, technical requirements, location, working model, compensation and hiring process.

02

Find & screen

Source candidates and check English, expectations, availability and agreed requirements.

03

Interview & refine

Share market feedback and adjust the search. Technical assessment can be arranged separately.

04

Hire & support

Recruitment fees follow successful hires. A three-month guarantee starts on the first working day under agreed terms.

MARKETS Europe / Israel / USA / Canada / Latin America

CLIENT STORIES

What our clients achieved.

Examples summarised from independently published Clutch reviews.

15+
developers hired

Nova Poshta Digital
